EDUCATION

Bachelor of Science in Software Engineering	Expected 2028
University of California, Irvine	Irvine, CA

WORK EXPERIENCE

Software Engineering Mentee	Oct. 2025 - May 2026
Big Brothers Big Sisters of OC X Google	Orange County, CA
- Participated in a SWE mentorship with a senior Software Engineer at Google. - Engaged in career development discussions, technical guidance, and software engineering practices. - Integrated real-world skills and practices into personal projects and development	

Coding Instructor	May 2025 - Jun 2026
Code Ninjas Los Alamitos	Los Alamitos, CA
- Taught students programming fundamentals and game development with MakeCode Arcade and Javascript - Accelerated students' learning and progress through teaching and reinforcing fundamental programming practices. - Emphasized learning through doing and practicing core concepts like variables, loops, conditionals, and functions.	

PROJECTS

Appli - Job & Internship Tracker Python, Flask, Postgresql, SQLAlchemy	May 2026 – July 2026
- Built a full-stack job tracking web app supporting multi-user authentication and full CRUD by implementing FlaskLogin with bcrypt password hashing and PostgreSQL with SQLAlchemy 2.0 - Reduced unauthorized data access by enforcing per-user data isolation and ownership verification on all mutating routes - Designed a relational data model with foreign key constraints and SQLAlchemy 2.0 mapped columns to enforce referential integrity across User and Job entities	

TECHNICAL SKILLS

Technical | **Backend Development, JSON, HTTP, Object Oriented Programming (OOP), REST API, API Integration, Algorithms, SQL, Data Structures, Version Control, CRUD, Database, Software Development Cycle**

Languages | **Python, C++, Javascript**

Tools | **Git, Github, Postman, VS Code, Pycharm**

Frameworks | **Flask, Node.js, Express, MongoDB, Pandas, Express, Bootstrap.js, React.js**
